## Schools Eye New Teachers For 1955-56

As a result of population growth, the Torrance School District will have to hire 83 new elementary teachers and 33 new high school teachers next year, the Torrance School Board was told last week.

With some 2200 new elementary students and 600 more high school students expected, the new teachers as well as girls' and boys' advisor, attendance supervisor, librarian, and nurse will be needed. Assistant Superintendent Albert N. Posner said.

These estimates do not include personnel needed to replace present personnel who resign.

Elementary principals and vice-principals will be needed at Newton and Steele Schools, which will be opened in September, Posner said, as well as various other administrative officials.

Plans are being made to recruit teachers, he said, and officials will visit several colleges in an effort to get highly qualified personnel.
